

GCSE Revision Timetable

The Rules!

- Your teachers will help you fill in this revision timetable with which topics to study on which days. Do your best to stick to it.
- Each session should be around **45 minutes** with NO distractions. Put your phone in another room, turn the TV off and tell your family you are revising.
- Recommended structure of a revision session
 - 5 mins – Upgrade Your Revision (page 3 of your Revision Support booklet)
 - 5 mins - self quizzing from last session
 - 30 mins – cognitively active revision
 - 5 mins – write a quiz for next session
- After each session, have a **20 minute break**. Do something different – go outside, talk to your family, eat a snack, get a drink.
- Revision sessions need to be cognitively active (see page 6 of your Revision Support booklet). This means NOT just reading and highlighting. Do something with the information – turn it into pictures, summarise it onto revision cards, test yourself or get someone to test you.
- This timetable gives you Saturday off every week. If a different day off revision is better for you, swap it so that you are revising on the Saturday instead. Remember this can be flexible each week depending on your plans, but you should be **revising for six out of seven days**.

How to create a revision timetable

1 - Work out when you need to start your revision and how many weeks you need to revise for and make a basic calendar.

This has been done for you in this booklet.

2 - Decide on your day off each week and mark it off on the calendar for each week.

This booklet gives Saturday as your day off, but you can change this depending on what suits you best. If it's your birthday or you have a party, have that day off and work on Saturday.

Remember this can be flexible each week depending on your plans, but you should be revising for six out of seven days.

3 - Plot which subject you are going to revise in each slot, three subjects per night.

This has been done for you throughout the booklet. Where the booklet assigns you a subject that you have already finished the course for, you could slot another subject into that space.

4 - Now assign the revision topics to each slot.

Your teachers have broken the exam papers down into key topics/areas to revise – see your email with the GCSE Revision Topics Booklet 2022 attached for the full list. Count how many revision sessions you have per subject, then count how many topics there are per subject. Divide the number of topics by the number of revision sessions, this will tell you how many topics you need to study in each revision session.

As you have mini-assessments in

5 – Look at each topic and decide the best revision strategy for that topic, then write it into the timetable.

The aim here is to make as many decisions as possible now so that when you come to revise, you can just sit down and get on with it.

Read the last page of the revision booklet, then write under each topic whether you will make mind maps, revision cards, do past papers etc. Choose the revision strategies that work the best for you.
